Optimize Your Pricing Strategy with QL2 Data Access for Air

In the airline industry, continuous knowledge of competitor's prices, routes and availability means staying competitive. This is no small feat since the airline industry endures constant price fluctuations. QL2 understands that for airlines, empty seats equal missed revenue. Knowledge of changes in the market landscape allows for quick and strategic action to fill more seats.

QL2 equips your pricing analysts and revenue managers with information about the competitive options that are available to consumers today. QL2 Data Access for Air provides up-to-date fare details, such as price and flight options, for virtually any competitor in any market. Only QL2 provides airlines with a cost-effective way to capture and manage actionable data for what is being sold anywhere, at any time across competing carrier and online travel agency websites.

“ QL2 drives our revenue optimization by informing us what routes at what price at what point in time. ”
— VP, Revenue Management

The screenshot displays the QL2 web application interface. At the top, there is a navigation bar with 'Home', 'Searches', 'Results', 'Reports', 'Tables', 'Magellan', and 'Account'. The main content area shows search results for a flight route. The 'General' tab is active, displaying flight details: 'Type: Flights', 'Owner: domesticflights', 'Created: 4:31PM PDT, Apr 29 2008', 'Last Run: 12:10AM PDT, Apr 30 2008', and 'Finished: 12:47AM PDT, Apr 30 2008'. The 'Schedule' tab is also visible, showing a list of flight times: 'Every Sunday at 00:00 PDT', 'Every Monday at 00:00 PDT', 'Every Tuesday at 00:00 PDT', 'Every Wednesday at 00:00 PDT', 'Every Thursday at 00:00 PDT', 'Every Friday at 00:00 PDT', and 'Every Saturday at 00:00 PDT'. Below the schedule, there is a table with columns: Site, Origin, Dest, Leave, Return, Specific CXR, Reference, Flight Class, Passengers, With Connections, Booking Engine, DOW Depart, and DOW Return. The table contains several rows of flight data, including routes from DEN to LAS operated by F9, UA, and US.

Site	Origin	Dest	Leave	Return	Specific CXR	Reference	Flight Class	Passengers	With Connections	Booking Engine	DOW Depart	DOW Return
F9	DEN	LAS	1	2			E	1
